## **Personal Guarantee of Performance and Workmanship:**

Rondor Excavations Ltd. prides itself in providing our customers with quality workmanship on each and every project. Therefore it is essential that we hire quality employees that are capable of standing by their workmanship. In an industry without any certification or formal educational training, we as an employer must rely on an employee's work history, resume and commendations from past employers to measure your abilities for the job in which you have applied and have been hired to do.

The following will be considered your "Personal Guarantee of Performance and Workmanship". By signing below you agree to guarantee to the workmanship on every project in which you were assigned to work on. Should an installation error occur on an assigned project, you agree to return to the project as directed by the VP of Operations (Ryan Punton). This may include correcting the error after hours, weekends and or holidays.

It is our goal as a company to limit or eliminate these occurrences and our hope is that you will play a positive role in assisting us with this goal.
